

The European Blonde d'Aquitaine Breeders Association

FIERBA

Fédération International des Eleveurs de la Race Blonde d'Aquitaine

Short remarks on the FIERBA meeting in Les Herbiers – France at the National Show – 25th of September 2010.

Delegations:

France: Mr. Lionel GIRAUDEAU and Mr. Alain HAVY

Holland: Mrs. Fredie van DIJK and Mr. Bas BOUMAN

We had a discussion on the need of continuing the work of the workgroup. We came to the conclusion that for the future it is important to continue this work and maybe we can come to an equal way of judging over Europe.

Therefore we continue because if we wait for the moment that eventually in France they will change the system, we will be unable to restart.

To work on we can use those items that are similar in most of the countries.

We even can try to come to a system that re-calculates the French figures to the European standard.

Lionel explains that this re-calculation even can be printed on the French pedigree, in order to give more information to European Blonde d'Aquitaine breeders.

In the coming few weeks Lionel will come with a proposal so that the workgroup can continue their work in order to come to a satisfying way of notation the scores in a linear way.

After this information it will be a good thing the workgroup comes with suggestions what points will be ready to re-calculate.

My suggestion is that the workgroup plans a meeting the 25th of February 2011 in the afternoon to discuss this matter. This does not mean that in the meantime there will be a pause. I think that proposals can be sent by mail to the members of the workgroup in order to prepare this meeting.

On behalf of the FIERBA.
